

I want to aknowlege my total support for XM Radio and all it offers including the newly added Traffic and Weather stations. It's unfortunate the The NAB feels this is unfair. However XM offers what the other stations never could, current and up to date traffic and weather on a continual basis with out having to wait through countless advertizements and DJ/broadcaster commentaries. When I want traffic information (especially maneuvering here in LA) I need it "NOW" not every 10 or 15 minutes at the regular braodcast stations convenience. I urge the FCC to reject the NAB petition 04-160

Thank you,
Randy W. Naffin
